

## HORIZON YACHTS FD85

The Horizon FD85 fast-displacement motoryacht (87'1" LOA, 23'3" beam) features a striking exterior appearance, spacious layout and flexible speeds. Her design – a close collaboration between yacht designer Cor D. Rover and Horizon's in-house naval architecture team – boasts voluminous aft deck lounge seating to the expansive open flybridge. The Horizon FD85 is powered by twin CAT 1600 engines for a top speed of 20 knots and has a flexible cruise speed of 10-16 knots, with a range of 1,534 nm at 10 knots. The full-beam master stateroom is on deck and features a king bed, skylight and ensuite head. The ensuite guest staterooms include a bow VIP, mirrored aft VIPs, and a twin guest stateroom that converts from two singles to a double; crew quarters are located aft of the engines. On the main deck, large windows bring natural light into the main salon and formal dining, and the FD85 can be piloted from either the raised pilothouse helm or the exterior helm on the open flybridge. ## REGULATOR 34

The Regulator 34 (33'10" LOA, 10'11" beam) offers a design that maximizes space to the point of rivaling its 39-foot competitors.

Regulator's signature deep-V hull, designed by Lou Codega, is matched by low bow rise and peak performance. The 34 runs to a top speed of 56.7 mph and its optimum cruising speed is 35 mph powered by twin Yamaha 350-hp engines. Fishermen's favorites include a 42-gallon transom livewell, 220-quart transom fish box, and 3X Deluxe Tackle Center with rigging station. Let out your lines with optional Taco Grand Slam 380 outriggers with carbon fiber poles, and keep the fish on ice with an optional refrigerated chill plate for the transom fish box. A berth features sleeping accommodations for two and abundant rod rack storage, and there is a starboard boarding and dive door and removable watersports tow bar. ## TIARA SPORT 38 LS

The Tiara Sport 38 LS (38'1" LOA, 12'6" beam) offers supreme functionality with walkaround capabilities, an island-style outdoor galley, and bridge and lounge seats reachable via both port and starboard entries. Accessible social zones allow guests to experience a myriad of waterplay activities, dining in the open air, luxury lounging via a convertible sunpad, elegant cabin, and aft cockpit areas. Wraparound forward bow seating provides even more space to enjoy time on the water together. Powered by triple Yamaha 350-hp engines, she tops out a 55.6 mph and cruises 253 miles at 34.8 mph. Garmin's systems provide ease of use for the captain, and optional Yamaha Helm Master Joystick steering provides additional control whether underway or docking. ## AQUILA 36

Meet the all-new fishing and diving version of the Aquila 36 (36' LOA, 14' 7" beam), a sport catamaran powered by twin Mercury Verado outboards up to 350 hp. While still offering the conveniences of a large yacht including two comfortable cabins with private ensuite heads, she integrates key fishing and diving features. Fishing enthusiasts will appreciate the spacious livewell, generous storage with knife and tool holders, fishing rod holders, and large fish box, all thoughtfully placed. Dive tanks easily store away in the aft and easy access to the water is provided with an integrated dive ladder. Additional options include a second BBQ, more refrigerated space and extra storage. Powered by twin 250-hp engines, the Aquila 36 has a top speed of 27 knots, and cruises at 21 knots with a 282-nm range. [aquilaboats.com](http://aquilaboats.com)

## INTREPID 407 PANACEA

The Intrepid 407 Panacea (40' LOA, 11'1" beam) blends power and offshore performance with exceptional comfort and fishability. This 407 Panacea features a large, well-appointed cabin without compromising cockpit space. Forward wraparound bow seating allows for comfortable cruising and relaxing.

Equipped with Intrepid's signature transverse stepped hull to maximize stability, the 407 Panacea delivers a smooth ride at any speed and offers an integrated motor bracket for twin-, triple- or quad-engine configurations. Wood-free, PVC foam-cored construction and non-woven quad and uni-directional fiberglass fabrics are both infused and hand laid to provide strength, rigidity and safety without performance-robbing weight. ## HORIZON POWERCATS PC74

A white Horizon Powercats PC74 catamaran is shown from a rear-quarter view, moving quickly across the water and leaving a white wake. The boat has a large cabin and a swim platform.

The Horizon Yachts PC74 (73'9" LOA, 28'4" beam) is in the series of luxury catamarans designed, engineered and built for cruising yachtsmen. The PC74's design was optimized from data obtained from extensive tank testing and CFD analysis (computational fluid dynamics). The PC74's layout includes a gourmet galley, formal dining, grand salon, full-beam master stateroom with walkaround king bed, two ensuite VIP staterooms, a third ensuite guest cabin for couples or singles, and comfortable crew quarters for three. Powered by twin Caterpillar C18 ACERT 1,150-hp engines, this boat runs to a maximum speed of 22 knots. [horizoncatamarans.com](http://horizoncatamarans.com)
