

DOCK WALK (continued)

Horizon Yachts

Horizon Yachts will unveil a high-volume version of its ever-popular E Series motoryacht at the Fort Lauderdale show. This head-turning yacht features a streamlined exterior profile that defines the E Series atop a beamy and voluminous hull. While a four-stateroom configuration is standard, the E81 (84' 7" LOA, 20' 6" beam) on display was customized with three staterooms including a full-beam master suite and an office/library. The yacht's open-plan layout accommodates an expansive salon with a galley and country kitchen outfitted in two-toned white/silver oak with light quartz surfaces and contemporary accents. The spacious deck areas offer two bars with dining and an entertaining area on the foredeck.
