

## HORIZON PC60

With the PC60 (60'9" LOA, 24'6" beam), Horizon Powercats focused on designing an exquisite power catamaran with a high-end finish and ample lounging and entertaining options. The PC60's appealing lines are reminiscent of a stylish motoryacht; from the side, it's hard to tell that it has two hulls. Powered by Cummins QSM11 705-hp engines, the PC60 runs to a top speed of 23 knots, and at 18 knots, has a cruising range of 420 miles. She sleeps six guests in three staterooms with room for two crew in the fourth cabin. The PC60's helm features a Stidd helm chair, a bench seat to starboard and sun lounge to port. The extensive electronics package includes a full complement of Garmin equipment, Wi-Fi router and a complete entertainment system. The interior appointments reflect a European style, and the eclectic wood combinations of satin and gloss ribbon cut walnut, light birch flooring and plush soft furniture surfaces have a sophisticated feel yet remain relaxed and inviting. The galley options include a Sub Zero full-height refrigerator/freezer, wine coolers, dishwasher, oven, and induction cooktop. The PC60 appeals to clients who have owned much larger motoryachts, fishing boats, trawlers, and lower-end power and sailing cats and offers a similar volume, deck space, accommodation, and amenities in less space resulting in half the annual running costs and improved attributes.

## FOUNTAIN PAJOT MY 44

The Fountaine Pajot MY 44 (44' LOA, 21'8" beam) offers stylish lines and unique living spaces that allow an incredible amount of light into its interior. The MY 44's spacious flybridge offers a sunbathing lounge overlooking the sea. Her salon offers a large open area with a terrace, large lounge and galley opening directly onto the cockpit, where friends and family can enjoy outdoor activities all day long.

Two staterooms to starboard are for guests, while the owner's cabin is to port. All cabins have a sea view and an ensuite bathroom, and an additional private forward cabin to port can be added as an option. The MY 44 offers excellent speed while underway, and the hulls of the MY 44 have been specially studied to deliver excellent seaworthiness and stability at every speed. She can be equipped with Volvo Penta IPS systems with power from 350- to 600-hp providing a range of more than 2,000 nautical miles and top speeds of up to 30 knots. Additional features include a hydraulic gangway and dinghy crane. [fountaine-pajot.com](http://fountaine-pajot.com)
